# TRAINING COURSES

## 2022-2023

**MPM Global Solutions** (“MPM”) is proud to offer the following comprehensive list of executive/senior management, basic/advanced law enforcement, paramilitary/tactical training (counter-terrorism) and Firefighting/First-Responder training courses available for the 2022-2023 calendar year. If a desired course does not appear here, **MPM** can prepare client specific course(s) and usually have it available within 45-days.

Unless otherwise noted, courses are designed for five (5) day presentations, but can be modified for the client’s specific needs.

In order to be properly prepared for any training deployment, **MPM** instructors usually require 45-60 days advance notice. However, select emergency deployments can be made available on a case-by-case basis.

**NOTE:** Prior to assigning personnel to any **MPM** training modules, our clients should be aware that most **MPM** courses are designed for participants who have completed some type of basic military and/or law enforcement training course. Therefore, prior to assigning a student to any of the MPM law enforcement classes, please ensure that they have a basic knowledge of local law/customs, basic police patrol techniques, basic arrest techniques, basic firearms proficiency and basic crime scene investigative skills.

*“Advanced Law Enforcement & Security Training for the 21<sup>st</sup> Century”*
